

## "MADE WITH ITALIAN TECHNOLOGY"

Means **process excellence** and **historicity** or, in other words, years of industrial culture. These are elements recognised across the globe, and based on innovative intuition attention to detail and reliability to last.

As a member of Assomac – the National Association of Italian Producers of Manufacturing Technology – our company is committed to the definition of **efficient and sustainable processes** in **full respect of environment, territory and people**, and represents, promotes and supports a business culture oriented to:

- **quality**
- **research**
- **innovation**
- **reliability**

→ **"ITALIAN MECHANICAL ENGINEERING IS FIRMLY AT THE TOP OF WORLD EXPORTS OF CAPITAL GOODS".**

EXPERTISE

TECHNOLOGIES

SUSTAINABILITY

### EXCELLENCE IN PRODUCTION

Assomac companies guarantee **high quality** in the production of machines and technologies for footwear, leather goods and tanneries. Thanks to their knowledge of the supply chain and the use of innovative systems, the companies offer reliable and high-performance solutions.

### MADE IN ITALY QUALITY

The Italian roots guarantee the quality of the "made in Italy". Choosing Italian machines, components and technologies, **such as unique combinations of traditional craftsmanship, technological innovation and attention to detail**, is synonymous with high quality products.

### PRODUCT CUSTOMISATION

The **solutions respond to the specific needs of the customers**: all machines and technologies are 'tailor-made'. From mechanized to the most technologically advanced, the solution adapts to production.

### AFTER-SALES SERVICE AND SUPPORT

Buying from an Assomac member company means having an **extensive support and service network** at your disposal: the service provided, including after-sales, places a team of highly qualified technicians at the customer's disposal to respond to any problem.

### CONTINUOUS INNOVATION AND DEVELOPMENT

Assomac companies continuously invest in research and development to ensure that their products are always at the cutting edge and able to meet their customers' needs. **The machines and technologies on offer are therefore always advanced and performing** to achieve the production objectives.

### SUCCESSFUL PARTNERS

Choosing to buy from an Assomac member company means choosing a **reliable and competent partner** to understand and co-design your processes and production goals for your production goals.
